

REMARKS

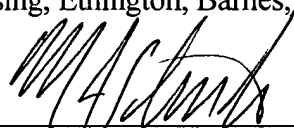

The Remarks submitted in the response filed on March 13, 2006 are incorporated herein in their entirety. Further, the amendments to the claims are supported in at least the following listed excerpts of the specification. The changes in claim 14, are supported at least in column 1 at lines 37-55; column 2 at lines 5-6; column 3 at lines 1-14, and lines 51-61; and column 4 at lines 35-37, and lines 43-46. The recitation in claims 29 and 30 that the air valve is in its fully opened position when the throttle valve is in its wide open position is supported in at least column 1 at lines 45-47; and column 3 at line 66 to column 4 at line 11. The coupling as set forth in claim 31 is supported in at least column 3 at lines 1-13; column 3 at line 43 to column 4 at line 7; and column 4 at lines 23-37. Claim 32 is supported at least in column 4 at lines 23-37. And claim 33 is supported at least in column 3 at lines 1-13. The above list of excerpts is not intended to be fully inclusive of all support for the noted claims. Support in the specification for elements not specifically supported by the above listed excerpts is believed to be obvious in view of the specification and/or previously set forth.

Applicants believe no fee is due for additional claims with the filing of this Response. If there are any fees due with this Response as determined by Patent Office calculations, it is hereby authorized and respectfully requested that any additional fees be charged to our Deposit Account No. 50-0852.

Respectfully submitted,
